A red light camera (short for red light running camera) is a type of traffic enforcement camera that captures an image of a vehicle which has entered an intersection in spite of the traffic signal indicating red (during the red phase). By automatically photographing vehicles that run red lights, the photo is evidence that assists authorities in their enforcement of traffic laws.

2.1. Economic costs. Pre-construction costs can be considerable and include ground investigations and survey work required before the physical construction of the utility takes place. As an integral part of this stage, asset location can attract large costs due to limitations associated with soil type, utility type and depth (Sterling, 2000, Thomas et al., 2008).
