Global Insurance Market Trends 2017 - OECD

In a world largely starved for structural growth, both cyclical and secular forces are now working in concert to create a favorable environment for capital deployment across many parts of Asia. Key to our thinking is that the current macro backdrop, including a more favorable currency environment as well as a more stable China, has turned more positive.

What is the Logistics Performance Index? Connecting 2012

The economy of Asia comprises more than 4.5 billion people (60% of the world population) living in 49 different nation states. Six further states lie partly in Asia, but are considered to belong to another region economically and politically. Asia is the fastest growing economic region, as well as the largest continental economy by both GDP Nominal and PPP in the world.

World energy consumption is the total energy used by the entire human civilization. Typically measured per year, it involves all energy harnessed from every energy source applied towards humanity's endeavours across every single industrial and technological sector, across every country. It does not include energy from food, and the extent to which direct biomass burning has been accounted for ...
