

messages from the masters pdf

The Message of a Master Page 6. To The Reader The following pages are the result of a series of notes collected and set down in the form of a story and a system of practice, which accounts for the style of arrangement. The sequential order as originally received has been carefully adhered to that its value to the reader might not be lessened.

Messages from the Masters Excerpt. One characteristic of energy is its vibratory pattern. Gas molecules vibrate more rapidly than molecules of liquids, which in turn vibrate more rapidly than molecules of solids. The molecules may be identical, such as H₂O (water), but the frequency of molecular vibration determines the state, whether solid or liquid or gas.
