Industry Research & Insights. SmartMarket Reports provide research on emerging trends that are impacting and transforming the construction and building industry. Stay up-to-date on topics including risk management, building information modeling, world green building trends, and safety advancements.

Reports | Construction Industry Research and Studies

Project management is the practice of initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time. A project is a temporary endeavor designed to produce a unique product, service or result with a defined beginning and end (usually time-constrained, and often constrained by funding or staffing ...

Project management - Wikipedia

Schedules in project management consists of a list of a project's terminal elements with intended to start and finish dates.; Scientific management is a theory of management that analyzes and synthesizes workflow processes, improving labor productivity.; Scope of a project in project management is the sum total of all of its products and their requirements or features.
