

the muscular system anatomical pdf

contractile units controlled by the nervous system. e.g. in blood vessel walls and sphincters in GI tract.

The Muscular System PDF - Class Videos

The Muscular System Tour Lab Your muscles contract when a mild electric current comes in contact with the myofibrils in the muscle cells. The chemicals in your body produce the electricity to cause a muscle to contract. Do this: Go see your teacher for a shocking demonstration. (for the next 30 seconds we are in control of your muscles)

Muscular System Tour Skeletal Muscle - myscience8.com

Anatomy of the Muscular System Chapter 10 281 Figure 10-3 Structure of a muscle organ. Note that the connective tissue coverings, the epimysium, perimysium, and endomysium, are continuous with each other and with the tendon. Note also that muscle fibers are held together by the perimysium in groups called fascicles.

ANATOMY OF THE MUSCULAR SYSTEM - Midland High School

The trunk muscles include (1) those that move the vertebral column; (2) anterior thorax muscles, which move the ribs, head, and arms; and (3) muscles of the abdominal wall, which help to move the vertebral column and, most important, form the muscular "natural girdle" of the abdominal body wall.
