by Megan L. Norris. Summary: As the prevalence of genetically modified organisms (GMOs) continues to rise, there has been an increasing public interest for information concerning the safety of these products. Concerns generally focus on how the GMO may affect the environment or how it may affect the consumer. One specific concern is the possibility for GMOs to negatively affect human health.

Gender identity haunts every aspect of our lives, dictating the outcomes of our conversations, our workplaces, our relationships – even our bath products. Before most infants are named, they are assigned a sex based on the appearance of their external genitalia by a third party. These decisions are dolled out in a typically binary fashion, with no expectations for ambiguity.
