The Power of Negative Emotions: Tips from Dr. Darek Dawda By Mathilda Waters DD: Negative emotions are, first of all, informative reactions you experience in response to situations, circumstances, and people. They are useful because often you will feel a negative emotional reaction before you consciously realize that something is not quite right.

Today we discuss negative power functions. A negative power function is a function of the form $f(x) = x^{-n}$, where n is a natural number. We could also write $f(x)$ in the form $f(x) = \frac{1}{x^n}$: As usual, we are going to sketch out the graphs of some sample negative power functions, but before we do that, we need to talk about the domains of negative power functions.

series for negative integral exponents. The binomial series for positive exponents gives rise to a finite number of terms ($n+1$ in fact if n is the exponent) and in its most general form is written as: $(x+y)^n =$

WORKING WITH INTEGERS: 1. Adding Rules: Positive + Positive = Positive: $5 + 4 = 9$ Negative + Negative = Negative: $(-7) + (-2) = -9$ The sum of a negative and a positive number: First subtract: The answer gets the sign of the larger number $(-7) + 4 = -3$ $6 + (-9) = -3$ $(-3) + 7 = 4$ $5 + (-3) = 2$.

The Power of Words Words can be positive or negative. Words have power. The most common way we think

of word power is their power to communicate, getting across ideas. But that is not the only power, nor the limit to the power of words. The things you say can hurt and tear down, or they can heal and build up. We

The Power of Words Words can be positive or negative.

Dennis Dupuis's book is an inspiration to turn off the negative and embrace the positive, to look at the glass half full instead of half empty. We may be unaware of how our negative thoughts have a power that is so detrimental to a good outcome of just about anything. Once you learn to turn a negative thought into a positive one and get rid of the negative records playing in your head, your life WILL change.
