Media and Elections. The media are essential to democracy, and a democratic election is impossible without media. A free and fair election is not only about the freedom to vote and the knowledge of how to cast a vote, but also about a participatory process where voters engage in public debate and have adequate information about parties, policies, candidates and the election process itself in ...

Atom Probe Tomography (APT) is a state-of-the-art analytical method that allows for three-dimensional elemental mapping with near atomic resolution.

APT, tomographic atom probe, atom probe tomography, steel

More on near-computers ENIAC. Even when they turned to electronics, builders of calculators still thought of programs as something quite different from numbers, and stored them in quite a different, inflexible, way.

Alan Turing Scrapbook - Who invented the computer?

Grand strategy or high strategy comprises the "purposeful employment of all instruments of power available to a security community". Issues of grand strategy typically include the choice of primary versus secondary theaters in war, distribution of resources among the various services, the general types of armaments manufacturing to favor, and which international alliances best suit national goals.

Grand strategy - Wikipedia

INTRODUCTION. A wound is a disruption of the normal structure and function of the skin and skin architecture []. An acute wound has normal wound physiology, and healing is anticipated to progress through the normal stages of wound healing, whereas a chronic wound is defined as one that is physiologically impaired []. To ensure proper healing, the wound bed needs to be well vascularized, free of ...
