scrap, and iron ore steel because of its importance to the elements used to alloy with it and steel scrap and iron ore because of their use in steelmaking. A few minor metals, such as potassium, sodium, and strontium, for which the price histories were insufficient, were excluded.

U.S. Geological Survey Metal Prices in the

only scrap metal but items that are still in use, such as copper wire, guardrail, street signs, traffic light components, and pieces of bridges and other structures. Caltrans is investigating the components of a multifaceted approach to preventing this type of metal theft.

Recycling of Stolen Metals Preliminary Investigation 11-1-11

Pursuant to 22 CCR 66261.6(a)(3)(B), scrap metal, as defined in 22 CCR 66260.10, is exempted from regulation under State law when recycled. Most scrap metal is recycled through smelting or other methods to recover the metal value. The way in which scrap metal is recycled does not determine whether the scrap metal exemption applies.

Department of Toxic Substance Control

Under federal law, scrap metal is essentially a product made of metal that becomes worn out (or is either off-specification, excess or unwanted material) and is recycled to recover its metal content, or metal pieces that are generated from machining operations (i.e., turnings, stampings, etc.).
