Hi Eleanor and Grace! When you have acid reflux it means you don't have enough acid in your gut! So taking antacids only make it worse in the long term since it reduces acid in the stomach - stomach acid is one of our main defenses against undesirable bacteria that enter the body through the mouth.

One of the biggest motivations to adopt a more nutritious diet is the desire to improve skin health. Many people of all ages struggle with skin conditions such as acne, rosacea, dry skin, wrinkles, and sun damage, among others. This can be very upsetting for those who have yet to find a solution to their problematic skin. While conventional medical professionals often discount the connection ...
